

## WHY CHOOSE AXIS90 ROOF WINDOWS?

### + 75 YEARS' EXPERIENCE

AXIS90 roof windows are manufactured by Altaterra, part of the VKR group, the biggest roof window producer in the world who've been in business for 75 years, which means these windows are high quality and backed by credible experience, expertise and know-how.

### + A SOLUTION FOR EVERY REQUIREMENT

Within the AXIS90 range, there are three different windows available to suit any requirements:

#### TIMBER PINE WITH VENTILATION

Perfect for rooms requiring constant ventilation (e.g. bedrooms or a kid's room).

#### WHITE PAINTED TIMBER

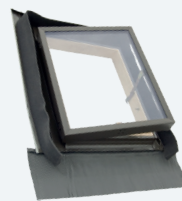

With a sturdy, wide frame which is warp resistant and has a modern but neutral look to match most interiors.

THIS WINDOW IS AVAILABLE UPON REQUEST

#### PVC WINDOW

Recommended for rooms with high humidity, such as kitchens or bathrooms.

#### SKYLIGHT FENSTRO

A cold room window designed to provide ventilation and light for uninhabited and unheated loft spaces (e.g. garage).

### + GREAT QUALITY AT AN AFFORDABLE PRICE

#### NORDIC PINE WOOD

The wooden frames are made from sustainably sourced pine wood and treated with fungicide and insecticide protection, followed by a coat of water-based varnish.

#### OPTIMAL THERMAL INSULATION

Equipped with 24 mm double glazing, AXIS90 roof windows guarantee good thermal insulation and low emissivity, which reduces heat loss in winter and limits overheating in summer.

#### BOTTOM HANDLE

Made of moulded zinc, the handle has three positions - one is fully closed, and two further opening positions allowing ventilation on demand.

#### MADE IN THE EU

AXIS90 roof windows are manufactured in Europe in a certified (ISO 9001, ISO 14001, OHSAS 18001) production facility, which uses the latest technology to ensure the best industrial, environmental and labour standards.

## FAQ

### 1 Who makes AXIS90 roof windows?

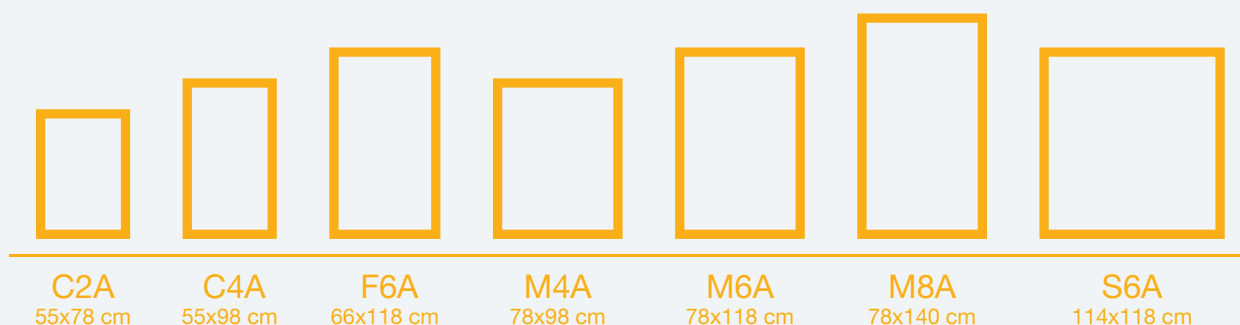

The AXIS90 windows are manufactured by Altaterra Ltd, part of VKR group, the biggest roof window manufacturer in the world.

### 2 How long is the guarantee for AXIS90 roof windows?

10 years provided the windows are installed using flashing from the same brand.

### 3 In which sizes are AXIS90 roof windows available?

In 7 of the most common and popular UK sizes.

### 4 What's the advantage of a timber roof window with ventilation?

The AXIS90 timber roof window DVX allows air circulation at times when the roof window is fully closed thanks to the air valve on the top part of the frame. In addition, the valve has an insect screen that prevents insects and dust getting in.

### 5 Which roof window is best for a kitchen or bathroom?

The AXIS90 PVC roof window APX because it's made of PVC material which is highly resistant to moisture and very easy to maintain (practically no need for cleaning).
